SUMMARY

8th-semester Informatics Engineering student with a Programmer Certification from the Indonesian Professional Certification Authority (BNSP) and a strong interest in Game Development. Currently learning Unity and concept art while building expertise in full-stack web development and graphic design. Experienced in social media content creation, branding, and website design through internships, freelance projects, and personal initiatives. Proficient in Figma, Krita, Canva, Adobe Illustrator, Photoshop, HTML, CSS, JavaScript, Laravel, Vue.js, and Inertia.js. Passionate about combining creativity and technology while continuously developing technical and artistic skills to contribute to the growth of the gaming industry, particularly in Indonesia.
